Applicant's arguments with respect to claims 18-44 have been considered but are moot in view of the new ground(s) of rejection.

***Double Patenting***

Claims 18-44 of this application conflict with claims 20-46 of Application No. 09/942,201. 37 CFR 1.78(b) provides that when two or more applications filed by the same applicant contain conflicting claims, elimination of such claims from all but one application may be required in the absence of good and sufficient reason for their retention during pendency in more than one application. Applicant is required to either cancel the conflicting claims from all but one application or maintain a clear line of demarcation between the applications. See MPEP § 822.

Claims 18-44 are provisionally rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 20-46 of copending Application No. 09/942,201. This is a provisional double patenting rejection since the conflicting claims have not in fact been patented.
